Allowable Subject Matter

Claims 1-42 are allowed.

The following is an examiner's statement of reasons for allowance: the present invention is generally related to a natural language processor and more particularly to a method and system for translating a natural language text into predicate argument format using ontology based parser. The claims are allowed, because the prior arts of record do not teach the parser that converts sequences of ontological entities into predicate structure using a two stage process as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel D Abebe whose telephone number is 703-308-5543. The examiner can normally be reached on monday-friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Doris To can be reached on 703-305-4827. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
